### **Banco Votorantim announces investment in the strategic partnership with Neon Payments**

Banco Votorantim announces to the Market that, in partnership with the private equity fund General Atlantic (GA), made the capital contribution of R \$ 400 million in Neon payments. This investment is already considered the largest in Series B investments made in Brazil.

“Through strategic partnership such as this, Banco Votorantim is increasingly connecting with companies and complementary services that contribute to the diversification of its revenue sources. For Banco Votorantim, this contribution is another proof that we are the Brazilian Bank most connected with fintech’s” says Gabriel Ferreira, CEO of Banco Votorantim.

Launched in 2016, Neon already has over 2 million accounts open. The investments made by Banco Votorantim and GA will be used to expand the offer of products, including the development of credit modalities and investment alternatives to customers, as well as advertising campaigns, technology and talent hiring.

Banco Votorantim points out that, the investment is subject, among other conditions, to approval by regulatory agencies.
